SafeTALK Community Training

Suicide Prevention

Each year some 42,000 teens and adults die by suicide in the US. You can help to reduce this tragic statistic by recognizing the key indicators which may signify this tendency.

Become 'Suicide Alert'

SafeTALK, a half-day, internationally recognized suicide-alertness seminar prepares anyone over the age of 15 to become suicide alert. You will learn how to help by using *TALK – tell, ask, listen, and keep safe*.

To stem this growing tide, Family Service League is offering a **free** three hour training seminar called **SafeTALK**.
